Services

BOWAS AG was originally founded in 1975 as the international marketing instrument for the Bohlen Industrie/WASAG Chemie activities. This is also how the name BOWAS came about.

Although successful in this role, BOWAS AG very quickly moved into more challenging and independent areas of operation.

The combination of a profound knowledge of international markets and the wide range of technology at its disposal, stemming initially from the companies within the group, but later being enhanced through cooperation with a number of reputable partners, has made it possible for BOWAS AG to establish itself as a competent partner for products, technologies, machines and equipment as well as engineering services for the explosives related industries.

We market the following products and services:

Products on behalf of or in cooperation with:

Nitrochemie Aschau GmbH
in Aschau/Inn, Germany
Nitrochemie Wimmis AG
in Wimmis, Switzerland
Fr. Sobbe GmbH
in Dortmund, Germany
Nitro-Chem S.A.
in Bydgoszcz, Poland
Borregaard Industries Ltd.
in Sarpsborg, Norway

Machines and Equipment:

Extruder Experts GmbH & Co. KG
in Monschau-Imgenbroich,
Germany
Rheinmetall Denel Munition Ltd.,
South Africa
Ferrum AG
in Rapperswil, Switzerland
Metzner Maschinenbau GmbH
in Neu-Ulm, Germany
Battaggion SpA
in Bergamo, Italy
Mechatronik Maschinenbau
Ges.m.b.H
in Kufstein, Austria
Global Engineers Ltd.
in New Delhi, India

South Africa
Nigu Chemie GmbH
in Waldkraiburg, Germany
RUAG Munition
in Altdorf, Switzerland
Explomo Technical Services Pte Ltd.
in Singapore
Plinke GmbH
in Bad Homburg, Germany

who is our sister company is specialized in:

Feasibility studies
Project management
Basic and detail engineering
Turn-key plants
Modernization of plants or process
units
Specification, procurement,
inspection, acceptance and ship-
ment of equipment
Process know-how, transfer of
technology, technical assistance
Supervision, installation, start-up
Training of personnel
Management assistance

in particular in the following fields:

Linters treatment
Nitrocellulose
Nitroguanidine
Acid reconcentration
Waste gas cleaning/Waste water
treatment in explosives factories

Single-base propellants, solvent
and solventless double-base and
multibase propellants
Ball grain powder
Black powder
Paste and Mastermix
Combustible cartridges
NTO
PBX
RDX
HMX
Nitroglycerine
Filling plants including biscuit
plants
Single machines and technology
for propellant plants such as shear
roll mill, isostatic blocking, batch
and continuous extrusion, graining
device, cutting machines, etc.

Disassembly of ammunition
Thermal disposal of explosives
and ammunition
Recycling of explosives and
ammunition
Thermal treatment of soil
contaminated with explosives
